WRITE STORIES FOR MOVING PICTURES

New, Spare-Time Profession for Men and Women—One Man Makes \$3500 in Six Months.

Owing to the large number of new motion picture theatres which are being opened throughout the country, there is offered to the men and women of today, a new profession, namely, that of writing moving picture plays. Producers are paying from \$25 to \$150 for each scenario accepted, upon which they can build a photo play.

\$3500 in Six Months.
As it only requires a few hours' time to construct a complete play, you can readily see the immense possibilities in this work. One man, who gave the idea a tryout, writes that he earned \$2500 in six months. It is possible for an intelligent person to meet with equal success.

One feature of the business which should appeal to everyone, is that the work may be done at home in spare time. No literary ability is required, and women have as great an opportunity as men. Ideas for plots are constantly turning up, and may be put in scenario form and sold for a good price.

Particulars Sent FREE.
Complete particulars of this most interesting and profitable profession may be had FREE OF CHARGE by sending a post card to
